- Dear Dr. Guthrie and line Joslin, local manager of KSAT 12, what does the Sunday morning tale-As a vetired educator, I must say we reach many who cannot come to church for the message. I know of one forty four year old ex-student who has Mustalar Selerosis, and is paralized, bed fact, in a nursing home. She watches each Junkey though we have to have norsel dial the television on proper Channel. She cannot use the remote control! It is a highlight of her week her Hospice caretakers tell us. Her Grandmother died of alzbreiners Disease and she enjoyed

the service for many years before dying. Her husband views it yet today.

There must be countless others of our area who depend on this program to bring them box's camfort each week.

This letter is written to reguest that this control of local that this control of local vice, be left with KSAT 12.

To FCC Hearing,

Welcome to San Antonio. For the last 3
Years I been tuning in to the First Baptist

From 11 a.m to 12 p.m., I been attracted to this

To me, this hopeomspiring inspiring local broadcast is Show-Time. So I hope you consider not interferring with its continuity.

RECEIVEL

January 20, 2004 Dear Rev Guthrie:

JAN 2 8 2004

RM-11863

The news that outsiders may gain more control of local programming is disturbing.

I do hope the FCC will consider carefully that local management knows the area and has a better grasp on community values. I do not know if there can be actual statistics, if there are ratings figures, re the number of listeners who enjoy local church services on TV, but surely there are many shut-ins who benefit. I am still able to live on my own, although near my children, but unable to attend services because of bone degenerations. You and your congregation make us feel a part of the service, the music offers an outstanding assortment of new and old (this is particularly meaningful to me because I played "for everything in town" in a small town for 50 years) It is bad enough when services are preempted for America's god, sports, as it is. I hate to think what outside interests would decide is "best" for us.

I appreciate your doing what you can to persuade FCC representatives not to let this happen.

Sincerely,

(Mrs) Gwen Arnold

Rev Don Guthrie Pastor, First Baptist Church 515 McCullough San Antonio TX 78205

R

Dear Don:

I am writing this letter to provide my thoughts on the importance of our church's television ministry here in San Antonio. For many, our service is the only way they can hear the Word of God.

My mother is a resident of a nursing home here in San Antonio and is no longer able to attend the church of which she has been a member for over 49 years. She faithfully watches our church service on KSAT on Sunday mornings and feels so blessed to be a part of our service. My former pastor and his wife, both confined to a nursing home until his recent death, regularly watched our Sunday morning service and frequently called me to talk with me about it.

Longtime friends of ours, confined to their home because of serious illnesses, recently became members of First Baptist Church through our television ministry and regularly watch the service. Though I am usually in church and don't watch the service on television, that is how I learned about our church-through the television ministry watched the service on television, attended and then joined as a member

This ministry is important, our members support it financially, and we pray for its continuance

Sincerely,

Ing Hinchcliff
